Famed Jammu Basmati -

Certified as Safe for Pesticides Residual Limits

"Basmati" is long grain aromatic rice grown for many years in sub-tropical plains of Jammu, Samba & Kathua Districts, blessed with characteristics extra- long slender grains that elongate at least twice of their original size with a characteristics soft and fluffy texture upon cooking, delicious taste, superior aroma and distinct flavour, Basmati 370 is unique among other aromatic long grain rice varieties.

The area coverage under Basmati Rice is about 46% of total Paddy cultivated acreage
Basmati in Jammu (J&K)

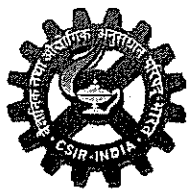

- Out of 62,600 Ha area under Basmati with Production of 1, 34,400 Mts the area under Basmati 370 is 53900 Ha with production of 106000 Mts whereas Pusa 1121 is cultivated in 8000 Ha area with production of 25000 Mts .
- J&K accounts for 2% share in all India area and 1.60% share in production
- Approximately 85,000-90,000 Farming Families are involved in Basmati cultivation out of which 90% are Small and Marginal farmers having low investment & risk bearing capacities
- The cost of cultivation of Basmati as reported by farmers is Rs. 40,000/- to Rs.50,000/- per ha. The net profit remains lesser, due to reduced yield and lower Prices
- Most of the farmers sell their produce after harvest in nearby in primary or secondary markets and Mandies. The Market rate varies from Rs. 2800 to 3000 per Qtls.
- Productivity in Basmati is very low(2.0 tons /Ha.) due to limiting application of nutrition in the crop which leads to lodging due to long duration of Basmati

Export of Basmati

India exports Basmati to 80-90 countries including EU, USA, Middle East, Russia, Ukraine, Turkey, Azerbaijan, Commonwealth of Independent States (CIS) countries. Iran was a major importer, but not anymore.

Most samples from Punjab, and even Haryana, have failed "mandatory testing and certification of inspection" due to the presence of "residue of unregistered pesticides" in the import-bound countries.

Punjab and Haryana, which account for 80 to 90 per cent of total Basmati export including 50 per cent export from Punjab alone — have failed to pass mandatory certification despite restrictions on these pesticides
